

Academic Risk Analysis and Recommendations

Risk Assessment and Intervention Report

Generated: 10 August 2026, 01:38 PM

Query: "Create a detailed report explaining the important academic risks and recommendations."

Executive Summary

This report highlights key academic risks and provides recommendations for intervention, focusing on 2 students currently on probation and the Electrical Engineering department.

Introduction to Academic Risks

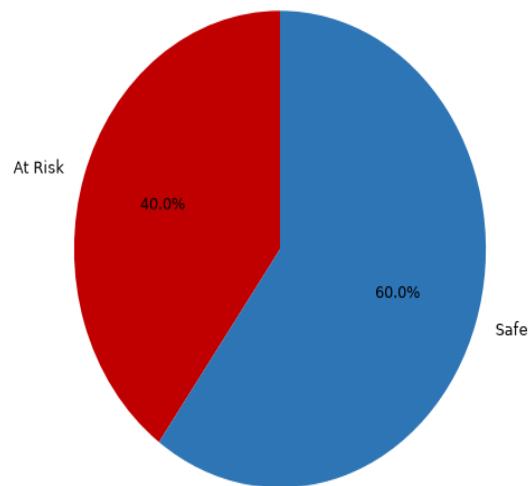

Overview of academic risks and their implications on student performance.

At-Risk Students Overview

Student Name	Department	CGPA	Attendance (%)	Status
Vikram Singh	Electrical Engineering	5.40	65.00	Probation
Suresh Kumar	Electrical Engineering	4.90	60.00	Probation

Risk Distribution

At-Risk vs Safe Students

Key Findings and Insights

Correlation between low attendance and probation status, and the need for immediate intervention in the Electrical Engineering department.

Recommendations for Intervention

Targeted academic counseling for at-risk students, particularly in the Electrical Engineering department, and strategies to improve attendance.
